

Around *the* House

A Publication of Essig, Inc. "Your Plumbing & Heating Experts" - Winter 2007

First Aid For Your Home

"Help! I need a plumber NOW! I have 20 guests coming to my house today for dinner and my kitchen sink is clogged"

**"Help! Send a plumber NOW!
I have 3 teenagers and no hot
water!!"**

**"Help! I need service NOW! I have
a baby in the house and we have no
heat!"**

"Help! My house is flooding!"

At Essig, Inc. we hear your cries and we do our best to get to your emergencies within the hour. But what is a homeowner to do until the 911 crew gets to your home? Here are a few helpful first aide treatments that can stabilize the situation until help can arrive.

- 1. NO HEAT!** Check your furnace fuse or circuit breaker located in the electrical service panel box. Check your thermostat. Check your fuel source. Keep extra blankets and a room space heater on stand by.
- 2. FLOOD!** Turn off the water at the main shut off valve. Be sure you locate this valve before a problem occurs. As a preventative, insulate exposed water lines in crawl spaces or in exterior walls.
- 3. CLOGGED TOILET!** Keep a plunger handy. Avoid using two-ply papers. Turn off the shut off valve under the tank.
- 4. CLOGGED SINK DRAIN!** Don't use drain-opening chemicals! Please let your plumber know if you did put chemicals down the drain. To help avoid clogs, ask your plumber about BIO-CLEAN, a non-toxic, environmentally friendly drain cleaner that you can put down your drain on a monthly basis to keep it clean.

"THE DESIGN GALLERY" Our New Bath and Kitchen Showplace

Our customers are already raving... You've got to see it to believe it! This new Bath and Kitchen Showplace is like no other in the area! Its not just a showroom... it's an experience!

From fully functional kitchens to complete luxurious bathroom displays, you will walk away with countless ideas to help you remodel your home.

Beyond the displays, what makes *The Design Gallery* so different? *The Design Gallery* is a one-stop Kitchen and Bath project center. All your project decisions can be completed under one roof including design, cabinets, fixtures, counter surfaces, tile, flooring and lighting, as well as installation by our team of professionals.

To help celebrate our Grand Opening, we will be offering all our customers who stop by from December 15 through January 15th 2008 a \$50 Gift Certificate off any Essig, Inc service including plumbing and heating services. In addition, any kitchen and bath agreements that close by January 31st 2008 will receive a 10% Grand Opening Discount—that could amount to \$1000's in savings!

"THE DESIGN GALLERY" Grand Opening Special

Visit The Design Gallery between December 15th and January 31st and receive a

Thanks for A Great Year!

Words cannot express the appreciation we have for our customers. Because of faithful and loyal customers like you, we were able to open two additional branch locations this past year in the Reading/Berks County service area. Our new rapid response service branch is located just off the West Shore By-Pass across the Bingamin Street Bridge. In addition, we are also located in Sinking Spring at *The Design Gallery*. We are committed to remaining the Best Family-Owned Service Company in Berks County since 1938!

What our Customers have to say

- Very professional and reliable. Good maintenance follow up advice. Very thorough. Courteous and pleasant technicians.
- Office staff were very accommodating – able to get someone to me in good time and my request for Jud was granted.
- The installation crew was very clean and professional in the installation of the furnace and A/C unit. They were able to answer all questions that we had. We are very appreciative of good quality work.
- The best plumbing experience we had. Your company will be highly recommended by me. I finally found a good, reliable plumber.
